LAME for children. From what I've seen, this is an interesting puzzler, but I think the experience of tracking down the show and watching it first would be better than a game of spoilers. I have to say I've been a fan of the original since it first aired in the 80's, so hearing the new voices was a bit jarring. For anyone just jumping into the series, lore is irrelevant, as is knowledge of the original series. It stands well on its own. Still, I can't see anyone that isn't already a fan picking this up. It's a boost of nostalgia, but I wouldn't recommend it as an introduction to the series.. Enjoyable game with nice cartoon cutscenes but it's pretty easy. Though the collectibles are quite challenging especially at some late levels. If you are playing in Arabic, there are few noticeable language mistakes. Good game.
